

HEAVY-DUTY TRUCK STUDY

INITIAL INCIDENT FORM

The Heavy-Duty Truck Study Initial Incident Form is a new electronic form that will be developed as part of FMCSA's Crash Causal Factors Program (CCFP) Reporting Module and Database. Each responding State Motor Carrier Safety Assistance Program (MCSAP) CMV Inspector or designated officer will submit this form within 24-48 hours of the crash occurring. This form will contain critical information to create the initial record for the crash, such as crash date and time, location, persons involved (e.g., drivers, motor carrier, and witnesses), and a short description of the event.

The example form shows the type of information that will be collected. The supplemental forms that follow provide additional space for the MCSAP CMV Inspector or designated officer to record vehicle, non-motorist, and witness information.
